Premium Medical Aesthetics • Professional Body Contouring Technology

AIMA MEDICAL

5 ADVANCED HANDLES

ONE PLATFORM, TOTAL BODY TRANSFORMATION

01

Vacuum Cavitation Handle

Large-Area Fat Reduction

- 45kHz cavitation targets stubborn fat
- Vacuum suction improves energy delivery
- Covers large treatment areas efficiently
- Ideal for abdomen, thighs and buttocks

02

Large Vacuum RF Roller Handle

Cellulite & Body Contouring

- 4-in-1 vacuum, RF, roller and 850nm NIR
- Mechanical roller smooths cellulite appearance
- 90-level vacuum for customized treatments
- Ideal for waist, abdomen, thighs and buttocks

03

Small Vacuum RF Roller Handle

Precision Body Sculpting

- Compact head for small and curved areas
- RF heating supports localized fat reduction
- Vacuum roller improves firmness and texture
- Ideal for arms, calves, knees and flanks

04

Facial Bipolar RF Handle

Face & Neck Tightening

- Precision RF treatment for delicate areas
- Stimulates collagen for firmer-looking skin
- Defines the jawline and facial contours
- Ideal for face, *neck and double chin*

05

448kHz RET Handle + Negative Plate

Deep Thermal Therapy

- 448kHz RET energy reaches deep tissues
- Up to 250W professional power output
- Supports circulation and muscle relaxation
- Smart temperature control below 42°C

Safe
Clinically tested & CE certified

Effective
Visible results with every session

Versatile
Customizable protocols for every need

Efficient
Fast treatments, maximum results

LIPOMOTION PRO
NVR01

AIMA MEDICAL

Clinical Applications

LipoMotion Pro NVR01 is a non-invasive body contouring system designed for multi-dimensional body shaping and skin management. It supports a wide range of applications for both face and body.

Body contouring

Helps reduce localized fat deposits and sculpt a smoother body shape.

Skin tightening

Promotes collagen production to improve skin firmness and elasticity.

Cellulite appearance improvement

Helps smooth uneven skin texture and reduce the appearance of cellulite.

Body circumference management

Supports inch-loss programs and helps shape a more defined silhouette.

Lymphatic massage

Supports lymphatic drainage to reduce water retention and relieve swelling.

Facial contour care

Helps define facial contours and support a more refined appearance.

Double-chin care

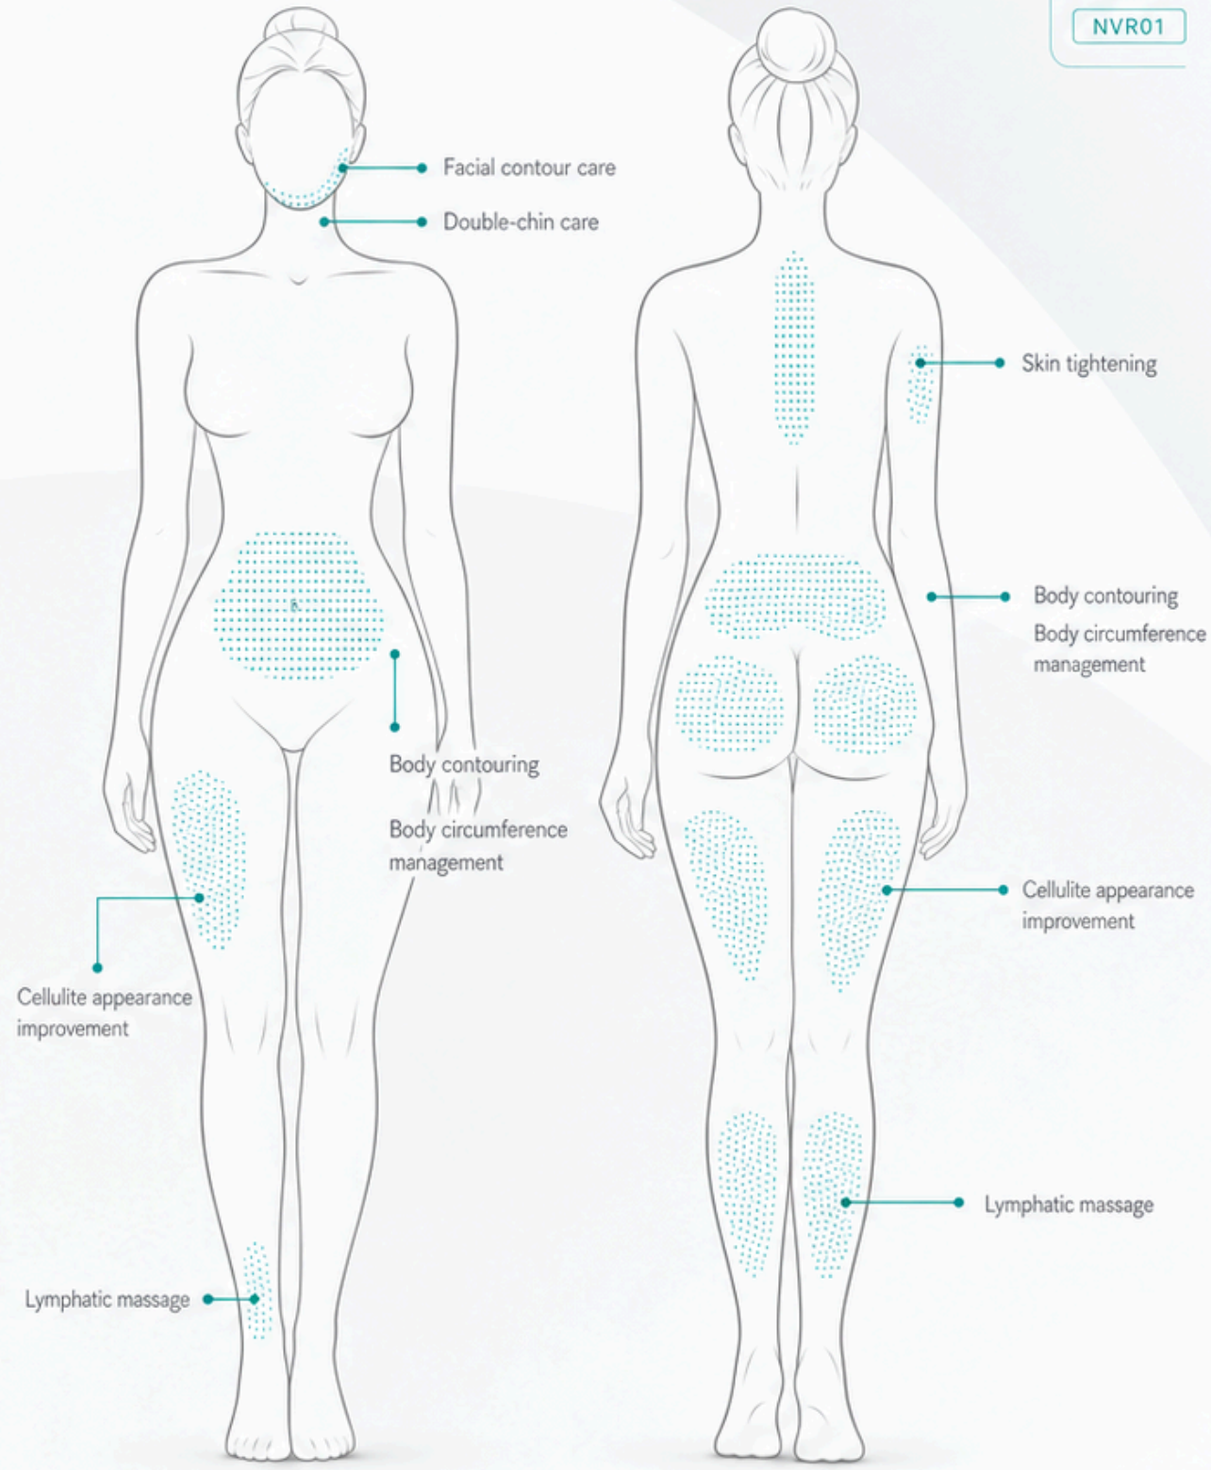

Targets submental area to improve the look of fullness under the chin.

Post-treatment body maintenance

Maintains and enhances results after aesthetic treatments or procedures.

LIPO MOTION PRO

NVR01

This product is not intended to diagnose, treat, cure, or prevent any disease.
Treatment results may vary depending on individual conditions.

RECOMMENDED TREATMENT PATHS

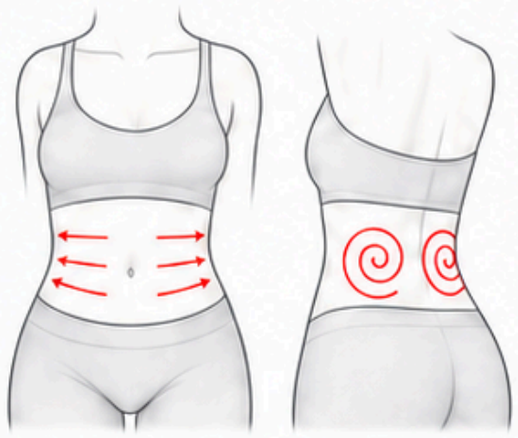

Professional techniques for optimal results

ABDOMEN

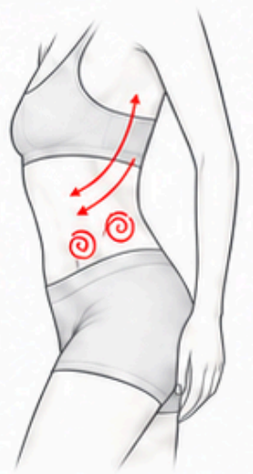

- Clockwise large circles
- Spiral toward center
- Up & down short push-pull

WAIST

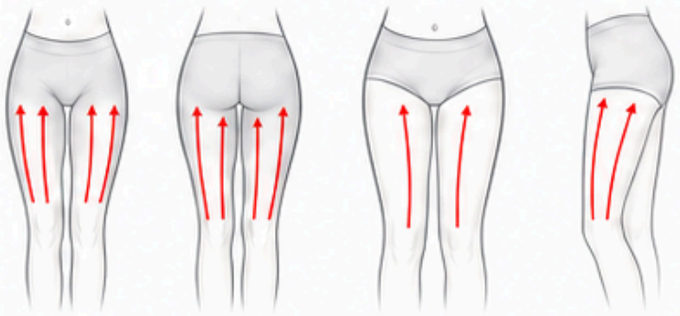

- From outer to inner push-pull
- Circular movements

FLANKS

- Arc lifting
- Circular movements

THIGHS

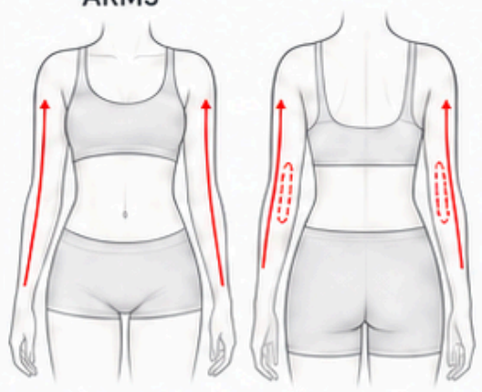

- From knee to hip push-pull
- Circular movements

BUTTOCKS

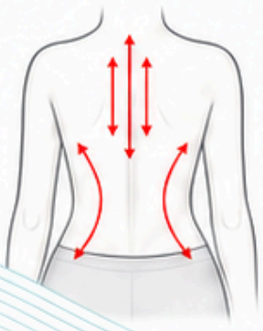

- From bottom to top lifting
- Circular movements

ARMS

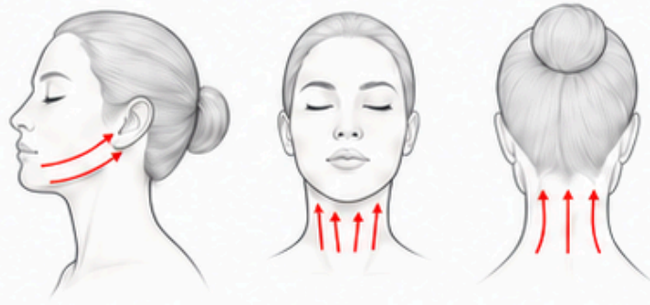

- From wrist to shoulder push-pull
- Inner & outer sides

BACK

- From neck/shoulder toward lower back push-pull
- Arc movements along both sides

DOUBLE CHIN / JAWLINE / NECK

- From jawline toward front of ear
- From base of neck toward chin gentle lifting

RECOMMENDATIONS

- Use medium pressure and slow, controlled movements.
- Follow lymphatic flow and muscle direction.
- Recommended time: 5–15 minutes per area.
- Use with conductive gel for optimal performance.

For professional use only. Follow product manual and safety guidelines. Individual results may vary.

Technical Specifications

Product Name	LipoMotion Pro
Model	NVR01
Operating System	Android Smart System
Display	15.6-inch HD Touchscreen
Rated Power	500W
Handpieces	5 Treatment Handpieces
Vacuum Adjustment	0–90 Levels
Maximum Vacuum Pressure	−80kPa
Cavitation ultrasound	45kHz
Ultrasonic Power	Up to 200W
RF	448kHz
RF Output	300W
NIR Wavelength	850nm
Maintenance	Automatic Pipeline Cleaning
Input Voltage	AC 110–220V, 50/60Hz
Machine Size	41 × 48 × 107 cm (without bracket)
Package Size	67 × 68 × 137 cm
Gross Weight	125KG
